HEPATITIS B <ul style="list-style-type: none"> Series must NOT be completed in less than 4 months. Series should be completed within 9 months of starting school. 	<p style="text-align: center;">3 doses</p> <p style="text-align: center;">2nd dose can be given 1-3 months after the 1st dose. 3rd dose must be given at or after 24 weeks of age. 3rd dose must be given at least 2 months after the 2nd dose. 3rd dose must be given at least 4 months after the 1st dose.</p>						Recommend but not required
DTaP/DT/Td/Tdap <ul style="list-style-type: none"> Those older than 7 should not receive DTaP. After the 7th birthday, children should receive Td or Tdap. 	<p style="text-align: center;">4 doses DTaP</p> <p style="text-align: center;">IF the last dose is given on or after the 4th birthday.</p>	<p style="text-align: center;">3 doses DTaP, DT or Td</p> <p style="text-align: center;">IF the last dose is given on or after the 4th birthday.</p>		<p style="text-align: center;">3 doses DTaP, DT or Td</p> <p style="text-align: center;">IF the last dose is given on or after the 4th birthday AND</p> <p style="text-align: center;">1 dose Tdap</p> <p style="text-align: center;">IF student is 11 years old and IF it has been at least 5 years since the last DTaP, DT or Td.</p>		<p style="text-align: center;">3 doses DTaP, DT or Td</p> <p style="text-align: center;">IF the last dose is given on or after the 4th birthday.</p> <p style="text-align: center;">Tdap may substitute for 1 of the 3 doses.</p>	
POLIO (IPV or OPV) <ul style="list-style-type: none"> Students 18 years and older are not required to have IPV or OPV. 	<p style="text-align: center;">4 doses IF all doses are given before the 4th birthday. 3 doses IF the last dose is given on or after the 4th birthday.</p>						
MMR <ul style="list-style-type: none"> Blood test (titer) showing immunity to measles, mumps or rubella is acceptable. 	<p style="text-align: center;">2 doses</p> <p style="text-align: center;">1st dose must be given on or after the 1st birthday (4 day grace applies). 2nd dose must be given at least 28 days after the 1st dose (4 day grace DOES NOT apply).</p>						
VARICELLA <ul style="list-style-type: none"> Varicella must be received the same day as MMR OR at least 28 days apart (4 day grace DOES NOT apply). Blood test (titer) showing immunity to varicella and/or provider diagnosis/verification of disease is acceptable. 	<p style="text-align: center;">2 doses</p> <p style="text-align: center;">Must be given on or after the 1st birthday (4 day grace applies). Parent-reported history of disease NOT acceptable.</p>	<p style="text-align: center;">1 dose</p> <p style="text-align: center;">Must be given on or after the 1st birthday (4 day grace applies). Parent reported history of disease is acceptable.</p>	<p style="text-align: center;">Recommended, but not required</p>	<p style="text-align: center;">1 dose</p> <p style="text-align: center;">Must be given on or after the 1st birthday (4 day grace applies). Parent reported history of disease is acceptable.</p>		<p style="text-align: center;">Recommended, but not required</p>	

¹ To attend public/private school or licensed child care in WA State, each child must present a signed **Certificate of Immunization Status form** showing proof of 1) full immunization per the 2007 Recommended Childhood Immunization Schedule: <http://www.doh.wa.gov/cfh/immunize/documents/childschedule.pdf>, 2) an initiation of a schedule of immunization, 3) a medical exemption (with health care provider signature), **OR** 4) personal or religious exemption (with a parent/guardian signature).

² There is no maximum interval between doses. Even if the recommended interval is not met, the series does not need to be restarted. Vaccine doses given \leq 4 days before the minimum interval or age are valid, except for the intervals between MMR doses, varicella doses and MMR and varicella doses.
